CONTENTS

Third World Congress on Desalination and Water Reuse
Cannes, France, September 14–17, 1987

Prof. Anthony A. Delyannis, 1904–1986 xv

Session A. Energetics and economic aspects — Volume I/64

R.O. Design optimisation
by N.M. Wade (Brighton) 3

An economic comparison of 2×1000 m^3/day desalination plants
by H.W. Greig and J.W. Wearmouth (Newcastle upon Tyne) 17

Hybrid desalting system: a new alternative
by L. Awerbuch, V. van der Mast and R. Soo-Hoo (San Francisco, CA) 51

Cost and economic analysis of DOHA reverse osmosis plant (Kuwait)
by S. Akashah, M. Abdel-Jawad, M.M. Abdelhalim and J. Dahdah (Kuwait) 65

Energy consumption and costs of different desalting systems
by M.A. Darwish and N.M. Al-Najem (Kuwait) 83

By-product recovery from Saudi desalination plants
by I.S. Al-Mutaz (Riyadh) 97

Synthesis of thermal desalination processes. Part I. Multi-stage flash distillation system (MSF)
by N.J. Scenna (Sante Fe) 111

Synthesis of thermal desalination processes. Part II. Multi-effect evaporation
by N.J. Scenna (Santa Fe) 123

Analysis of a diesel dual plant
by S.E. Aly (Jeddah) 137

On the thermodynamics of dual purpose power desalting plants. Part I. Using steam turbines
by M.A. Darwish (Kuwait) 151

On the thermodynamics of dual purpose power desalting plants. Part II. Using gas turbines
by M.A. Darwish, A. Elhadek and A. Dayoub (Kuwait) 169

Desalination using the Canadian slowpoke energy system
by J.S. Glen and D.S. McDougall (Ottawa) 183

Water resources development in Riyadh, Saudi Arabia
by I.S. Al-Mutaz (Riyadh) 193

Relative technoeconomics of multistage flash distilllation and reverse osmosis for seawater desalination: a case study
by P.K. Tewari, M.S. Hanra and M.P.S. Ramani (Bombay) 203

Ten years' development on distillation in China
by Wang Shi-chang (Tianjin) 211

Potable water technology transfer and assessment in Egypt
by E.E. Khalil, A.H. Mariy and M. Marwan (Cairo) 217

Session B. Research and development on membranes for water technologies — Volume I/64

The efficient use of energy in membrane distillation
by A.G. Fane, R.W. Schofield and C.J.D. Fell (Kensington) 231

A desalination process through sweeping gas membrane distillation
by L. Basini, G. D'Angelo, M. Gobbi (Milan), G.C. Sarti and C. Gostoli (Bologna) 245
Aromatic/cycloaliphatic polyamide membrane
by S.A. Sundet, S.D. Arthur, D. Campos, T.J. Eckman and R.G. Brown (Wilmington, DE) 259
Gamma radiation induced graft copolymerization of acrylate monomers onto isotactic polypropylene
by I. Kaur and B.N. Misra (Shimla) 271
Chlorine resistant polysulphone reverse osmosis modules
by A.E. Allegrezza, Jr., B.S. Parekh, P.L. Parise, E.J. Swiniarski and J.L. White (Bedford, MA) 285
The effect of pH on the nanofiltration of the carbonate system in solution
by A.E. Simpson, C.A. Kerr and C.A. Buckley (Durban) 305
Asymmetric membrane formation. Is the evaporation step necessary?
by D. Sambrailo (Dubrovnik) and B. Kunst (Zagreb) 321
An experimental study for separation of NaCl from SAS by electrodialysis with ion exchange membranes
by Qu Jing-Xu, Qian Yao-Nan and Shen Yan-Zhang (Hangzhou) 329
Mass transfer and pressure loss in spiral wound modules
by G. Schock and A. Miquel (Baden) 339
A graphical method for the design of an electrodialysis stack
by F. Evangelista (L'Aquila) 353
Cleaning of low-mineral water by electrodialysis
by V.I. Demkin, Y.A. Tubashov, V.I. Panteleev and Y.V. Karlin (Moscow) 367
Composite membranes of aromatic polyamide for desalination: membrane preparation and characterization
by J. Lora and E. Soriano (Valencia, Spain) 375
New thin-film composite low pressure reverse osmosis membranes and spiral wound modules
by I. Kawada, K. Inoue, Y. Kazuse, H. Ito, T. Shintani and Y. Kamiyama (Kusatsu, Shiga) 387
Low-pressure reverse osmosis drying membrane reinforced by polyester web
by Liu Yurong, Lang Kangmin, Chen Yiming, Wang Lining and Qu Peixing (Hangzhou) 403
Reverse osmosis TFC magnum elements for chlorinated/dechlorinated feedwater processing
by W.G. Light, H.C. Chu and C.N. Tran (San Diego, CA) 411
RO-module with ultrasonic welded membranes
by F. Patocka (Höchstädt), S. Fries and H. Timm (Geesthacht) 423
The unsteady-state modelling of cross-flow microfiltration
by J.W. Hunt, C.J. Brouckaert, J.D. Raal, K. Treffry-Goatley and C.A. Buckley (Durban) 431
Reverse osmosis seawater desalting plants built by the ministerio de Obras Publicas y Urbanismo (Spain)
by M. Torres and J.A. Vera (Madrid) 443

(Session A — continued)
Optimization for design of large RO seawater desalination plants
by B. Ericsson, B. Hallmans and P. Vinberg (Stockholm) 459
Feasibility prediction of potable water production using waste heat from refuse incinerator hooked up at stirling cycling machine
by A. Abdall and S.H. Yacoub (Cairo) 491

Session C. Research and development: Evaporative processes — Volume II/65
Effect of inclination on the heat transfer performance of fluted tubes with and without drainage discs
by A. Büyükyilmaz, C. Özgen and T.G. Somer (Ankara) 3
A theoretical study of enhanced condensation over horizontal fluted tubes
by K. Fathalah, S.E. Aly (Jeddah), M. Darwish (Kuwait) and A. Radhwan (Jeddah) 25
Parametric study on falling-film seawater desalination
by G. Aly, A. Al-Haddad and M. Abdel-Jawad (Kuwait) 43
Development of flashing flow model for box type orifice
by M. Kishi, Y. Mochizuki, M. Matsubayashi and K. Hattori (Tokyo) 57
Thin film desalination plants and their role in water supply
by V. Slesarenko (Vladivostok) 63
Studies on the behaviour of high performance multiple-effect-stack processes
by R. Rautenbach and J. Gebel (Aachen) 75
Orbital tube evaporator and distillation systems
by Yao Tzu Li and I Chien Ho (Lincoln, MA) 87
Gas–liquid equilibrium of aqueous salted solutions under high pressure and temperature
by D. Barba, V. Brandani, G. Del Re and G. Di Giacomo (L'Aquila) 101
Activity coefficients in aqueous multicomponent electrolyte solutions from ambient to 200 °C
by D. Barba, V. Brandani, G. Del Re and G. Di Giacomo (L'Aquila) 113
Using a homogeneous model in simulation of sea water desalination condenser
by P. Costa, G. Lodi, E. Arato, L. Maga, S. Arazzini and R. Borsani (Genova) 123
An experimental study of flash evaporation from liquid pools
by S. Gopalakrishna, V.M. Purushothaman and N. Lior (Philadelphia, PA) 139
The effect of interstage heat leakage on the thermal performance of MSF evaporators
by T.J. Rabas (Concordville, PA) 153
An electrolysis sea water desalination system powered by photovoltaic cells
by Ō. Kuroda, S. Takahashi, K. Wakamatsu, S. Itoh, S. Kubota, K. Kikuchi, Y. Eguchi, Y. Ikenaga, N. Sohma and K. Nishinoiri (Ibaraki, Tokyo, Hiroshima) 161
The effect of preheater design on corrosion, heat transfer and operation of MSF-distillers
by K. Genthner (Bremen), S. Khalaf (Bahrain), W. Ruehle (Stuttgart) and A. Seifert (Bremen) 171

Session D. Plant operation: membrane processes — Volume II/65
Two seawater reverse osmosis plants operating at high pressure and 50% conversion
by H. Winters (Teaneck, NJ) 189
Reverse osmosis desalination plant, RA's Abu Jarjur, State of Bahrain — Two years operational experience for the 46,000 m^3/day RO plant
by M. Al Arrayedh (Manama), B. Ericsson (Stockholm), M. Amin Saad (Riyadh) and H. Yoshioka (Osaka) 197
The use of Pelton wheel turbines for energy recovery in reverse osmosis systems
by W. Wilson (Worcester), A. Gruendisch (Boniswil) and I. Calder-Potts (Worcester) .. 231
Nitrate reduction of well water by reverse osmosis and electrodialysis — Studies on plant performance and costs
by R. Rautenbach and W. Kopp (Aachen), G. van Opbergen (Neuss) and R. Hellekes (Mönchengladbach) 241
Design and optimization of spiral-wound and hollow fiber RO-modules
by R. Rautenbach and W. Dahm (Aachen) 259
The city of Cape Coral demonstrates reverse osmosis is cost effective and operationally

efficient
by M.R. Ashton (Cape Coral, FL) 277
New concepts in energy savings and process control for desalination plants using reverse osmosis
by E. Fredkin (Boston, MA) 321
Monitoring and control of biological activity in Permasep© seawater RO plants
by L.E. Applegate (Wilmington, DE) and C.W. Erkenbrecher, Jr. (Newark, DE) 331
Operational experience of reverse osmosis plants for drinking water in Indian villages
by S. Prabhakar, R.N. Patra, B.M. Misra and M.P.S. Ramani (Bombay) 361
Start-up of RO modules after a very long storage : A case history
by J.M. Rovel and L. Daniel (Rueil Malmaison) 373

Session E. Operations: Evaporative processes — Volume III/66
The Makkah-Taif MSF desalination plant
by M.F. Al Ghamdi (Jeddah), C.H. Hughes (Stuttgart) and S. Kotake (Tokyo) 3
Additive scale control optimization and operation modes
by M.A. Al-Sofi, M.A. Al-Hussain and S.G. Al-Zahrani (Al Khobar) 11
The Curacao KAE-LT-MED and auxiliary steam turbine project: A model for dual purpose MSF plants replacement
by A. Ophir (Tel Aviv) and S. Manor (Ramat Gan) 33
Field experiences on large MSF desalination plants designed to operate with two different top brine temperatures
by A. Massarani (Legnano) 43
The Ebeye desalination project — Total utilization of diesel waste heat
by W.E. Toelkes (Guam) 59
High performance ejectocompression desalination unit steam fed by a heat recovery boiler using exhaust gases of a diesel generator
by T. Michels and F. Murat (Paris) 69
Development of training simulator for MSFE desalination plant
by M. Kishi, K. Hattori, M. Tatsumoto and S. Koyama (Tokyo) 75
An update on the mass transfer of counterflow, packed deaerators containing pall-ring packing
by T.J. Rabas (Concordville, PA), S. Inoue and A. Shimizu (Osaka) 91
Design and constructioen of 4×1440 t/day MSF plants at Brindisi's power station (Italy): acid/antiscale additive treatment for 100°C top brine temperature
by R. Zannoni, I. Resini and R. Lucenti (Reggio Emilia) 109
Automated design of optimum pipeline in chemical industry
by V.V. Kafarov and V.P. Meshalkin (Moscow) 119
Computer-based performance evaluation of dual-purpose steam turbine/multistage flash desalination plants
by F.G. Abbosh and I. Kamal (El Monte, CA) 127

Session F. Round Table — Volume III/66
Introduction 143

Session G. Corrosion and scaling — Volume III/66
Galvanic studies related to the use in desalination plant of corrosion-resistant materials
by T. Hodgkiess, A. Maciver and P.Y. Chong (Glasgow) 147
Vapour side corrosion in MSF plants
by J.W. Oldfield and B. Todd (Sheffield) 171
Aspects of additives in precipitation processes: performance of polycarboxylates in gypsum

growth prevention
by M.C. van der Leeden and G.M. van Rosmalen (Delft) 185
Membrane fouling and cleaning at DROP
by S. Ebrahim and A. Malik (Safat, Kuwait) 201
Hot water resistant coatings for the inside protection of desalination plants
by N. Grafte and E. Roost (Montataire) 223
Corrosion engineering of high pressure piping in RO-plants
by S. Nordin (Karlstad) and J. Olsson (Avesta) 235
Copper alloy tube for MSF desalination plant: Some practical considerations
by N.M. Valota (Milan) 245
Analysis of RO flux decline due to membrane surface blockage
by J. Borden (Haifa), J. Gilron (Rehovot) and D. Hasson (Haifa) 257
Trace metal fouling and cleaning of seawater RO membranes
by G. Peplow (Malta) and F. Vernon (Salford) 271
Improved antiscaling treatment for desalination plants
by P. Zini (Valbonne), R. Zannoni and R. Lucenti (Reggio Emilia) 285
A comparative study of organic fouling in hollow fiber and spiral wound membranes
by G. Scott Watkins and H.B. Gupta (Northbrook, IL) 299

Session H. Pretreatment and post-treatment — Volume III/66
Experience on pre- and post-treatment from sea water desalination plants in Saudi Arabia
by N.A. Nada (Jeddah), Al Zahrani (Jubail) and B. Ericsson (Stockholm) 303
Control of organic fouling at two seawater reverse osmosis plants
by H. Winters (Teaneck, NJ) 319
The use of speciation and X-ray techniques for determining pretreatment steps for desalination
by C.A. Buckley, A. Bindoff, C.A. Kerr, A. Kerr, A.E. Simpson and D.W. Cohen (Durban) 327
Seawater pretreatment by continuous sand filter for seawater RO (reverse osmosis) desalination plant
by S. Kawana, T. Yoshioka, H. Harashina and T. Mikuni (Tokyo) 339
Experimental studies on pretreatment process of brackish water using electrocoagulation (EC) method
by Wang Sanfan and Wang Qinlai (Lanzhou) 353
Remineralization of desalinated water by limestone dissolution filter
by Y. Yamauchi, K. Tanaka, K. Hattori, M. Kondo and N. Ukawa (Tokyo) 365
Pilot experiences on the recovery of polluted reverse osmosis membranes
by M. Fariñas, J.M. Granda, L. Gurtubai and M.J. Villagra (Bilbao) 385
Trihalomethanes (THMs) formation in a distillation process
by B. Tawabini, H. Kharajian and N. Fayad (Dhahran) 403
The microbial analysis of domestic cistern water in the U.S. Virgin Islands
by I.R. Isquith and H. Winters (Teaneck, NJ) 415
Optimization of chemical pretreatment for reverse osmosis (RO) seawater desalination
by H. Al-Rqobah, M. Abdel-Jawad, Z. Qamhiyah and G. Aly (Safat) 423
Desulphation pretreatment for 138°C (280°F) operation: performance test of a 1 MGD plant at Doha East (Kuwait) power station
by R. Zannoni, I. Resini (Reggio Emilia), L. Liberti (Bari), M. Santori (Rome) and G. Boari (Potenza) 431
Desulphation pretreatment for reverse osmosis: field experiences in the State of Qatar
by G. Boari (Potenza), L. Liberti (Bari), R. Zannoni, F. Fantini (Reggio Emilia), M. Haruni and T. Abu Ihweig (Qatar) 443

Session I. Small plants solar powered — Volume IV/67

Status of solar assisted desalination: A review
by E.-E. Delyannis (Pefki) 3
Dynamic characteristics of a multistage thermal diffusion type solar distillator
by S. Toyama, T. Aragaki, H.M. Salah and K. Murase (Nagoya) 21
An electrodialysis sea water desalination system powered by photovoltaic cells
by O. Kuroda, S. Takahashi (Ibaraki), S. Kubota, K. Kikuchi (Tokyo), Y. Eguchi (Ibaraki), Y. Ikenaga (Hiroshima), N. Sohma, K. Nishinoiri, S. Wakamatsu and S. Itoh (Tokyo) 33
A hardy, high-yield solar distiller of brackish water
by R. and C. Ouahes (Alger) and P. and J. Le Goff (Nancy) 43
Construction of a solar desalination plant (40 cum/day) for a French Caribbean Island
by J. de Gunzbourg and T. Froment (France) 53
Performance analysis of photovoltaic electrodialysis desalination plant at Tanote in Thar desert
by M.R. Adiga, S.K. Adhikary, P.K. Narayanan, W.P. Harkare, S.D. Gomkale and K.P. Govindan (Bhavnagar) 59
Laboratory test of solar distillator with a heat penetrating plate having a bend
by S. Toyama, M. Nakamura, H.M. Salah, S. Futamura and K. Murase (Nagoya) 67
Solar desalination based on the multi-cycle concept
by H.J.T. Sousa (Madeira) and V. Janisch (Eschborn) 75
Technical and economical aspects of solar desalination with particular emphasis on solar pond powered distillation plants
by M. Posnansky (Berne) 81

Session J. Other technologies for water production — Volume IV/67

Why does ice grow faster from salt water than from fresh water?
by A.J. Barduhn (Syracuse, NY) and J.S. Huang (Hazlet, NJ) 99
Ice crystallization developments for the butane direct-contact process
by H.F. Wiegandt (Ithaca, NY), A. Madani (Jeddah) and P. Harriott (Ithaca, NY) 107
Wave powered desalination
by A.J. Crerar, R.E. Low and C.L. Pritchard (Edinburgh) 127
The vacuum freezing multiple phase transformation process
by C.Y. Cheng, W.C. Cheng and M.D. Yang (Albuquerque, NM) 139
Fresh water from the sea, a new process
by J.B. Maguire (U.S.A.) 155
Effect of the physical structure of the anion-exchange resins on their technological behaviour in ultra-pure water production
by I. Dobrevsky, A. Zvezdov, V. Mavrov and K. Ivanova (Bourgas) 163
Ultrapure water system design considerations
by P.S. Cartwright (St. Paul, MN) 171
Current status of the Calfran process
by F.W. Hoffman (Springfield, MA) 185
Some investigations on the possibility of using ocean thermal gradient (OTG) for seawater desalination
by G. Damy and J. Marvaldi (Brest) 197
Low temperature reject heat utilization for desalination; economical and technical aspects
by B. Hausherr (Berne) 215
A new process for the extraction of water from air
by Y. Alayli, N.E. Hadji (Algeria) and J. Leblond (Paris) 227

Session K. Water reuse — Volume IV/67

Utilization of treated wastewaters and sewage sludge in agriculture in Tunisia
by A. Bahri (Ariana) 233
Reuse of tertiary municipal wastewater effluent for irrigation of raw-eaten food crops: A five year field study
by B. Sheikh (Berkeley, CA), R.S. Jaques (Monterey, CA) and R.P. Cort (Berkeley, CA) 245
Desalination and reuse of power plant effluents: from pilot plant to full scale application
by C.F. Schutte (Pretoria), T. Spencer, J.D. Aspden and D. Hanekom (Johannesburg) .. 255
High quality water from refinery waste
by P. Gioli, G.E. Silingardi and G. Ghiglio (Milan) 271
Desalination and concentration of flue gas scrubber effluents using the electrodialysis reversal process
by D. Elyanow and J. Mahoney (Watertown, MA) 283
Close-recycle technology of industrial liquid waste
by Xu Jing-wen (Shangai) 299
The use of reverse osmosis as a 35,600 m^3/day concentrator in the waste water management scheme at 4640 MW Bayswater/Liddell power station complex — Australia
by T. Bryant, J. Stuart (Sydney), I. Fergus (Brookvale) and R. Lesan (Goleta, CA) 327
Heavy metals in wastewater to the Nile
by Sh. El-Rafei, Sh. El-Shawarby and F.A. Fahim (Cairo) 355
Application of membrane technologies for recovery of water from pulp and paper mill effluents
by B. Chakravorty (Patiala) and A.S. Srivastava (Yamuna Nagar) 363
Membrane technique in simplification of soda recovery process in pulp and paper industry
by S. Basu and V.S. Sapkal (Bombay) 371
Membrane technology as a tool to prevent dangers to human health by water-reuse
by R.F. Madsen (Copenhagen) 381
The treatment of industrial effluents with high salinity and organic contents
by O.O. Hart (Pretoria), A.E. Simpson, C.A. Buckley (Durban), G.R. Groves (London) and F.G. Neytzell-de Wilde (Durban) 395
The treatment of industrial effluents containing sodium hydroxide to enable the reuse of chemicals and water
by A.E. Simpson and C.A. Buckley (Durban) 409
The treatment and disposal of waste brine solutions
by C.A. Buckley, A.E. Simpson, C.A. Kerr (Durban) and C.F. Schutte (Pretoria) 431
The cross-flow microfiltration of problematic surface and river waters to produce potable water
by K. Treffry-Goatley, K.R. Buijs, A.M. Bindoff and C.A. Buckley (Durban) 439
The nanofiltration and reuse of effluent from the caustic extraction stage of wood pulping
by A. Bindoff, C.J. Davies, C.A. Kerr and C.A. Buckley (Durban) 455
The dewatering of sludges using a tubular filter press
by K. Treffry-Goatley (Durban), M.I. Buchan, G.E. Rencken (Pietermaritzburg), W.J. Vortman and C.A. Buckley (Durban) 467
Demineralization of a molasses distillery waste water
by F.G. Neytzell-de Wilde (Durban) 481
Recovery of lignosulphonate from a calcium bisulphite pulp mill effluent by ultrafiltration
by F.G. Neytzell-de Wilde (Durban) 495
Water and effluent water treatment using reverse osmosis
by R.N. Patra, S. Prabhakar, B.M. Misra and M.P.S. Ramani (Bombay) 507

Water transport during the concentration of waste zinc sulfate solutions by electrodialysis
by R. Audinos and S. Paci (Toulouse) 523
Investigation of cation transport through cation permselective membranes from solutions of salts composed of strong bases and weak acids
by R. Oláh and K. Vadasdi (Budapest) 547

(Session I — continued)
Wind power. A reliable source for desalination
by R. McBride, R. Morris and W. Hanbury (Glasgow) 559
Monthly comparative performance of solar stills of various designs
by Y.P. Yadav (Bihar) and G.N. Tiwari (Delhi) 565

Contribution received after July 15
Desalination in the year 2000 — Technoeconomic aspects
by O.P. Kharbanda (Bombay) 579
